5 Step to Book Your next Holiday Without Any Troubles and risk

....and Save Up to 30% of Unnecessary Booking Fees!!!

Choosing a holiday destination is not easy!!!

Lots of ideas.....

Lots of places to visit....

Too much information.... And you feel more and more confused!!!

**Take time to figure out what you wish 'to experience',
rather than what you wish 'to cover'**

You got your destination!!

But now...

...you have to plan the travel, planes, trains, accommodations, restaurants....

And you don't want to be swindled or to pay a surcharge.....

You're not the only one in this position.

The **90%** of the people feels like you.....

**Here are my 5 Steps to Book Your next Holiday
Without any Troubles and Risks
....and Save Up to 30% of Unnecessary Booking Fees!!!**

Of course....
there are several ways to get information nowadays.

You can visit your next holiday destination on the net,

find out '**must sees**',
hidden gems,
self-guided walking tour ideas,
and know the **local history, the geography, lakes, mountains and hills....**

To plan your tour, **it will be useful to know the place...** don't forget to
consider travel times from a location to another!

Driving in small mountain roads is really different from driving in a big city!!

You can get ideas about **cuisine and themed travel itineraries** as well

**I believe that the more you know about where you are going,
the better your trip will be!**

Lately....

you have been hearing about some **awful experiences** involving frauds when you're **booking travels via web**.

This **doesn't mean** you have **to be suspicious** of everyone, **just be careful** to book the right holiday at the right price.

The first step is to consider **the 3 main components of the offer**:

The Price

The Photos

The Description

If, compared to other advertisements, **the price seems really cheap**, it can be **fake**.

If the **photos seem too perfect to be true**, it's better to search the images on Google and **check if they really belong to that offer**

If the **description is too short** or doesn't provide enough information, don't hesitate and **ask the advertiser for further explanations**

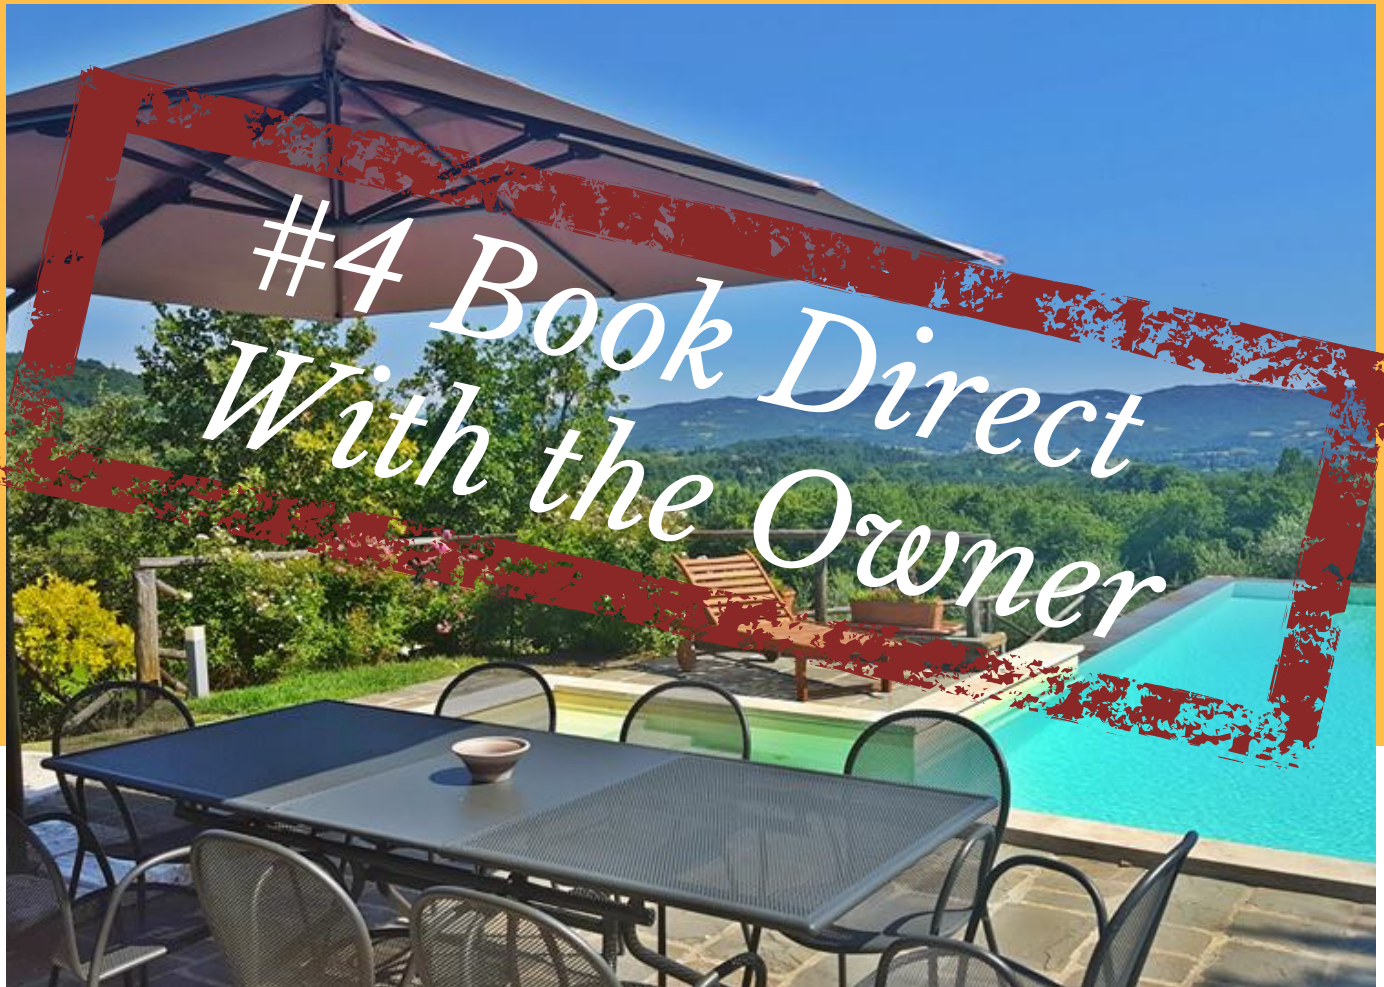

To pay a deposit or the balance, always choose **safe payment platforms** such as *Stripe and Paypal*.

They offer **important guarantees** against frauds, or use other **traceable methods of payment**, as bank transfers or credit cards.

DON'T PAY

by *Western Union*
or *Money Gram*
and *don't recharge prepaid credit cards*,

because you wouldn't have **any guarantees** if there were any problems.

Try to **book directly to the owner or house property manager** whether you're booking a stay in a hotel or in a vacation rental.

You'll get great advantages!!!

- ***You can Save Up to 30% of Unnecessary Booking Fees!!!***

...Contrary to what major Online travel agencies advertise, the best price isn't always on their web sites....

(...Imagine what you can do with the traveler service fee savings....)

- ***You can Get the Best Insider Tips by Booking Directly with an Owner***

...If you need important information for your stay, as: where is the nearest grocery store, what to do, what to eat....

Owner or house property manager have complete knowledge of locations and they can answer you quickly and efficiently...

- ***Repeat Guests Have Preferred Pricing***

...If you are a model guest, owners will often offer you a discount on your next reservation...

They are interested in earning regular customers, which is why they will do everything to make sure your stay is as comfortable as possible

You do not want to **lug heavy suitcases** over cobblestones and up and down tons of stairs....

Make a list and don't fill your baggage with anything that crosses your mind.
And respect it!!

Here are some useful tips!!!

- ***Put the swimsuits inside your shoes***

Why don't you optimize this empty space? Swimsuits never crumple!!!

- ***Use your socks to protect fragile items***

(jewellery, watches...)

- ***Match Your Clothes Carefully***

Pack your suitcase with some basic color clothes (black, grey or white).

Changing the accessories you'll change your look, too,
without carrying your wardrobe... on holiday!!

- ***Save Room For Souvenirs***

Don't fill up your suitcases!!! Maybe you'll buy something on holiday:
always leave room in your baggage, you won't have any problems
to pack your suitcases at the end of your vacation.

Thank you for reading my Guide.

Wouldn't be lovely to discover traditions, art, history, real local food and excellent wines in your next Travel?

I am not referring to the common “OLD” holiday,
but an **Immersive Stay to experience local culture and
unconventional tourist destinations**

This is why I want to invite you to visit Umbria

Umbria is the New Tuscany

Less expensive and less touristy than Tuscany, it is famous for its hill towns, countryside and art.

...But the best areas in Umbria are unknown
to the 90% of tourists!
